

FloorCrete Self-Levelling Floor Coating

Quick Guide:

- Perfect for renovations
- Extremely Durable & Hardwearing
- Enhanced colour variation
- Easy to maintain
- Can incorporate pebble or wood inlays

A coloured, cement-based, self-levelling floor covering for application onto rolled or wood-floated concrete floor slabs or screeds. It produces a 2mm smooth, decorative layer. For interior use only. To provide a durable, hard wearing, economical, smooth, attractive natural mottling alternative to tile or carpet floor coverings.

Maintenance

See CreteCare product range and datasheets for correct use and application.

Coverage

At an average thickness of 2mm, 20kg mixture should cover 5m².

Packaging

Supplied in 20kg non-returnable paper bags.
