## Discerning, Caring, Committed

You have discerning taste and you care about conservation. With Cobra's exciting new Water Saving Collection, you can now enjoy the best of both worlds distinctive style and quality to complement your philosophy without compromising the environment

Cobra's Water Saving Collection offers you a comprehensive range of products for the ultimate in eco friendly economical savings. From the most stylishly sophisticated bathroom fittings including taps, shower heads and toilet flush mechanisms to taps and mixers designed for a dream kitchen.

## Facts & Figures

### Interesting conservation-related facts and figures about water

- Two-thirds of the earth's surface is covered with water.
- Less than 3% of the total water available on earth is fresh water, and of this only 0,6% is drinkable.
- Only 1% of drinkable water is actually used for drinking.
- One-third of drinkable water disappears down showers and toilets.
- Water is an expensive commodity, yet water consumption is increasing.
- The cost of electricity to heat water is becoming increasingly expensive.
- We all need to become more conservation conscious and do our bit for the environment.
- Water saving, energy saving, eco friendliness, carbon footprint - all of these are interlinked with conservation awareness and preserving the environment.

## Let's 'Go Green' Together

Cobra invites you to join in our ongoing water and energy saving initiatives by choosing from the wide selection of stylish bathroom and kitchen fittings in the Cobra Water Saving Collection. You'll enjoy the satisfaction of doing the right thing by creating a 'green' home environment, as well as turning all your friends green with envy.

---

## Cobra Water-Saving Taps and Mixers

Cobra has now introduced a flow restrictor with a wide range of their taps and mixers. By fitting this flow restrictor, you are able to restrict your water flow rate to 6l of water per minute.

### Installing Your Flow Restrictor

The Cobra Water-Saving Collection enables substantial savings on water and electricity.

- Cobra Water-Saving shower heads offers water savings of approximately 360 litres per household per day, which amounts to approximately 131,400 litres per household per year.
- Saving water consumption means substantial reduction on electricity consumption.

### Cobra Electronic Taps

The electronic taps only deliver water when activated, i.e. by putting your hands in front of the sensor. They can be preset to deliver only enough water for the required function.

### Cobra Demand Taps

The demand taps allow water to flow only as long as the button is held down. They cannot be left running. This feature makes demand taps the ideal choice for public facilities.

### Cobra Metering Taps

The metering taps allow an adjustable water delivery time from 1 second minimum. They can be preset to deliver the minimum amount of water required.

## Cobra Water-Saving Shower Heads

Cobra Water-Saving Shower heads are designed with an ingenious yet simple and robust pressure compensating flow restrictor component which is constructed from a lime build-up inhibiting polymer material. The design of this device allows no more than 9 litres of water per minute to pass through it, but does not in any way disrupt the spray patterns of Cobra Shower heads.

# Cobra Water-Saving Accessories

## Other Accessories

In addition to the shower heads, taps and mixers, the Cobra Water-Saving technical accessories include a wide range of washer nuts, sink outlets, sink sprays, flexi outlets and seat washers, all of which are specially designed to control the maximum flow rate.

In order to save water and emit less greenhouse gases into the atmosphere we have to invest. Taking steps now will lead to economic advantages in the future. Water -Saving directly equates with energy saving, reduced carbon footprint size and eco-friendliness.

## Cobra pressure compensating flow restricted aerators for washbasins

Benefit from the proven and reliable Cobra technology that saves energy and water at the washbasin without any loss of comfort.

- Constant flow rate, regardless of line pressure
- Even water distribution.
- No wire mesh screens.
- Lime resistant.
- Recommended by an independent ecological institute as being "excellent for water saving".

## WATER SAVING TECHNICAL ACCESSORIES

### Service Key

**Description:** Spanner for M24X1 aerator housing.

**Code:** P-KEY

### Aerator Insert

**Description:** Pressure compensating 6 L/ min max flow for M24X1 and M22X1 housings

**Code:** P-WS/6

### Aerator Insert

**Description:** Pressure compensating 6 L/ min for M24X1 and M22X1 housings.

**Code:** P-WS/6-NOLIME

### In Line Restrictor

**Description:** Pressure compensating 9 L/ min in-line flow restrictor for shower heads and hand showers.

**Code:** P-WS/9-1L

### Hand Shower Hose

**Description:** Pressure compensating 12 L/ min flow restricted, 1500 mm long hose with conical ends.

**Code:** P-WS008-150

### Hand Shower Hose

**Description:** Pressure compensating 12 L/ min flow restricted, 1750 mm long hose with conical ends.

**Code:** P-WS008-175

## WATER SAVING TECHNICAL ACCESSORIES

### Hand Shower Hose

**Description:** Pressure compensating 12 L/ min flow restricted, 2000 mm long hose with conical ends.

**Code:** P-WS008-200

### Washer Nut

**Description:** Flow restricting seat washer nut for 1/2" heavy pattern head parts. 1 set = 6.

**Code:** P-WS1/ 2HEAVY

### Washer Nut

**Description:** Flow restricting seat washer nut for 1/2" light pattern head parts. 1 set = 6.

**Code:** P-WS1/ 2LIGHT

### Washer Nut

**Description:** Flow restricting seat washer nut for 3/4" head parts. 1 set = 6.

**Code:** P-WS3/ 4

### Sink Outlet

**Description:** Pressure compensating 6 L/ min heavy pattern swivel outlet.

**Code:** P-041/ 6NOLIME

### Sink Outlet

**Description:** Pressure compensating 6 L/ min light pattern swivel outlet

**Code:** P-041/ 106NOLIME

## WATER SAVING TECHNICAL ACCESSORIES

### Sink Spray

**Description:** Pressure compensating 6 L/ min sink spray with ball joint connector.

**Code:** P-062SPRAY/ 6

### Flexi Outlet

**Description:** Pressure compensating 6 L/ min sink flexi outlet

**Code:** P-062FLEX/ 6

### Seat Washer

**Description:** Fits all 1/2" light pattern taps and mixers.

**Code:** P-098-15

### Seat Washer

**Description:** Fits all 1/2" heavy pattern taps and mixers.

**Code:** P-097-15

### Seat Washer

**Description:** Fits all 3/4" taps and mixers.

**Code:** P-097-20
