| Rumblestone® |

The photographs in this brochure do not necessarily reflect actual product colours.

Its rustic charm, strongly reminiscent of a romantic bygone age, have made the Rumblestone® paver a favourite in applications as varied as home gardens, townhouse projects and shopping malls.

But there is a lot more to Rumblestone® than its natural feel or the ease with which it blends into the environment. Each 150mm x 200mm paver has its own character, yet it is simple to install. And because of its shape and the fact that it is fully reversible the paver is easy to lift and re-lay whenever necessary.

The Rumblestone® is a highly cost-effective paver with only 33 blocks required for each m² of paving and is offered in a range of body through colours.

The use of the paver is, however, not limited to conventional pavements. It can be used for constructing character flower boxes, stairs, mowing edges and other garden features.

DIMENSIONS

Length: 200mm
Width: 150mm
Thickness: 50mm.

COVERAGE

Approximately 33 blocks per m².

ESTIMATING

Allowance must be made for laying tolerance and edge cutting.
