UNI-DECOR®

The photographs in this brochure do not necessarily reflect actual product colours.

Today's environmental planner is fully in touch with the forces that are shaping the world in which we live by making our buildings more human places. And today, Uni-Decor® is increasingly being used by architects and developers who are seeking more pleasing shapes, colours and textures for their buildings and surroundings.

ART AND UNI-DECOR®

- Interesting and aesthetically pleasing areas can be created with the unique shape and colours
- The cobblestone effect adds charm and character
- There is total design flexibility.

ENGINEERING AND UNI-DECOR®

- Designed for strength and durability
- The interlocking action increases load-carrying abilities
- The chamfered edges preserve the riding surface
- The non-skid surface is safer
- Underground services can be reached easily and quickly
- The surface can be in use immediately after laying.

NATURE AND UNI-DECOR®

- The earthy colours blend into the environment
- The textured cobblestone effect links the building to its surroundings
- Natural harmony and balance is created with the unique, decorative blocks.

APPLICATIONS FOR UNI-DECOR®

- Commercial forecourts, shopping malls, townhouse developments, driveways, pavements and walkways, patios, courtyards and parking lots.
