INSTANT BOILING WATER DISPENSERS

BOILING WATER

**24/7**

ON TAP

INSTANT BOILING WATER DISPENSERS

**product features**

- Modern and aesthetically appealing.
- Stainless steel or white epoxy outer casing.
- On tap boiling water.
- Wall mounted.
- Fully automatic.
- Advanced electronic controls.
- Safe, hygienic and energy efficient.
- Steam free and convenient.
- Diagnostic PC board for fault finding.
- Additional safety probe.

**product specification data**

**Diagnostic PC Board**

- The unit is fitted with self diagnostics and indicative LED lights. The self diagnostic features programmed into the PC board, enables the unit to determine if a component is faulty, or if there is a fault in the heating and/or filling modes i.e. if there is no water connected.
- A further added safety feature to the unit is a third level water probe in the tank. This will enable the PC board to detect if the normal operating water level probe is faulty, or dirty and will prevent the unit from overflowing.
- Diagnostic faults are indicated on the front LED's of the face plate and on the PC board, with the respective component LED, eg. "SL" indicates Sollenoid Valve. The respective LED will flash when a fault is detected.

**NB.** Operates at 230 Volts AC, 50 Hz, single phase electricity.  
Flexible 1,5m electrical cord with a 3 pin plug fitted to all units.

**Product accessories**

Stainless steel drip tray.

Specifications	
Product code	SS-Tray
Outer Dimensions (mm)	335 x 255
Inner Dimensions (mm)	300 x 235
Depth (mm)	50

**product maintenance**

The water level probe must be cleaned on a regular basis to remove scale build up. To download the cleaning instructions, go to: [www.kwikot/kwikboil-instant-boiling-water-dispenser.php](http://www.kwikot/kwikboil-instant-boiling-water-dispenser.php)

**product warranty**

One year warranty is calculated from the date of sale of the unit, as verified by Kwikot (Pty) Ltd from the information contained in the company's records, and to the following conditions:

- The Kwikboil boiling water dispenser must be installed in accordance with the manufacturer's installation instructions, supplied with the unit and all statutory requirements of the geographical area in which the unit is to be installed.
- Where the failed component of the boiling water dispenser is replaced under warranty, the balance of the original warranty period will remain effective. The replaced component or complete boiling water dispenser does not carry a new warranty and the warranty period of the original unit is not extended for an additional period.
- The warranty only applies to the Kwikboil boiling units and therefore, does not cover any plumbing or electrical parts supplied by the installer and not an integral part of the boiling water unit eg. pressure control valve, stop cock, electrical switches or fuses.
- The warranty is applicable in South Africa, Namibia, Lesotho, Swaziland and Botswana and is subject to water conditions equivalent to main Metropolitan supply authorities.

**This is the only guarantee given, and it expressly excludes all other warranties, expressed or implied in law, including any implied warranty of merchant ability or fitness for a particular purpose. No ammendments or additions to the warranty shall be binding on Kwikot (Pty) Ltd.**
