Chopping Board
Hygenia

Stainless Steel
Drainer Rack

CASCADE

The new Cascade range follows the European trend of square designs to compliment appliances and softened minimalism.

Cascade is manufactured in South Africa using the latest Franke Swiss technology to produce consistent high quality products. The sinks are produced using monoblock technology to minimise welding, and in doing so ensures that quality and performance is of the highest standards.

A compact sink with a 500mm width and a larger draining area has been achieved through the new positioning of the bowls.

All sinks are supplied with a basket strainer waste fitting to reduce waste entering the draining system.

Cascade is available in a brushed or patterned Linen Finish stainless steel finish.

ADMIRAL

Fragranite contains the greatest quantity of Quartz filler on the market. Using Quartz as a filler is for its hardness. There are only three natural minerals in the world with a great hardness level: Topaz, Ruby and Diamond.

This Quartz filler provides the Fraganite sink with the best protection against scratches, scorch marks from high temperature exposure and stains from everyday items such as red wine and coffee.

Fragranite composite material from Franke. It is scratch resistant, heat resistant up to 260°C and thermal shock resistant.

MATCHING ADMIRAL PREP BOWL AND MIXER AVAILABLE

NOUVEAU

The new Nouveau range of sinks follows the European trend towards minimalistic and square corners replacing traditional soft edged sinks.

The new design incorporates a fresh look drainer board. Manufactured in South Africa, the new Nouveau range is a compact and affordable sink.

Nouveau sinks are produced using monobloc technology from austenitic stainless steel to ensure that the product withstands coastal conditions.

All sinks are supplied with a basket strainer waste fitting to reduce waste entering the draining system.

QUINLINE

Quinline is a "soft edge" range of inset sinks produced in South Africa. This range of monoblock one-piece pressed sinks have a proven track record of consistent quality and performance. All the edges are folded for extra strength on the corners. Austinitic stainless steel ensures that the product performs well in high corrosion coastal areas. Four models available in brushed or linen finished material. Quinline sinks are supplied with basket strainer waste fittings.

FINISHES AVAILABLE:

CARE & MAINTENANCE

CLEANING PROCEDURE

Clean the Stainless Steel as often as experience dictates (i.e. when noticeably dull or dirty) and use the simplest cleaning procedure that will effectively "do the job".

- Stainless Steel reacts best to clean water or mild detergent solution, applied with a soft cloth or sponge, rinsed well and wiped dry.
- Routine, simple, gentle and inexpensive cleaning will retain both the corrosion resistance and appearance of Stainless Steel through years of exposure and use. Occasionally a small amount of Inox Creme may be used on a soft cloth wet with the detergent solution to remove stubborn dirt or slight incipient stains. Rub gently.

CLEANING DO'S

- Employ regular routine cleaning rather than an occasional aggressive single cleaning.
- Only use propriety brands of cleaners that state "SUITABLE FOR STAINLESS STEEL", such as Inox Creme or the New Stainless Steel Cleaner Spray.
- Always rinse and dry as the final step in a cleaning procedure.

CLEANING DON'TS

- Do not use coarse abrasive powders.
- Do not use metallic scourers or brushes with metal bristles.
- Do not use the so termed "silver cleaners".
- Do not use acids (except nitric acid in specific instances).

STORAGE OF PRODUCTS

Product research has proven that certain household products which may be stored underneath a sink, can lead to damage of the sink's base. Chlorine is the major culprit and can be found in: chlorine for swimming pools; household bleach; bathroom cleaning products such as toilet cleaners, mildew treatments and tile cleaners; kitchen cleaning products - especially liquid cleaners; powders for dishwashers and laundry detergents. Preserve the life and beauty of your sink by storing these products away from the sink area in a well ventilated cupboard that is preferably child-proof.

WARRANTIES

- Sinks: 25 years against corrosion
- Mixers: 5 years on body
- Cartridges for mixers: 1 year

WASTE MANAGEMENT

FOOD WASTE DISPOSER

- Durable
- Hygienic and environmentally friendly
- Energy efficient
- Protects against insect and rodent infestation
