Pressure Control Valve

KHN3.104

KHN3.106

KHN3.112

KHN3.114

KHN3.116

product features

- The Kwikot Mono Valve body is manufactured from high grade forged DZR Brass with stainless steel relief seat.
- The fully serviceable cartridge with stainless steel strainer and spindle makes this valve suitable for domestic plumbing applications with a long service lifespan.
- The compact design with integral expansion relief valve lends itself to ease of installation, with 15mm and 22mm copper-to-copper connections.
- The expansion relief valve has a rotating flushing mechanism, which can be rotated through 360° and flushes dirt and sediment from the valve.

product specification data

Kwikot Mono Valves comply with SANS 1098 Specification (Control and Functional Valves) and carry the SABS mark of approval.

Product Code	Connection Sizes and Type	Pressure Rating
KHN3.104	15mm Copper to Copper Compression Connections	400kPa
KHN3.106	15mm Copper to Copper Compression Connections	600kPa
KHN3.112	22mm Copper to Copper Compression Connections	200kPa
KHN3.114	22mm Copper to Copper Compression Connections	400kPa
KHN3.116	22mm Copper to Copper Compression Connections	600kPa

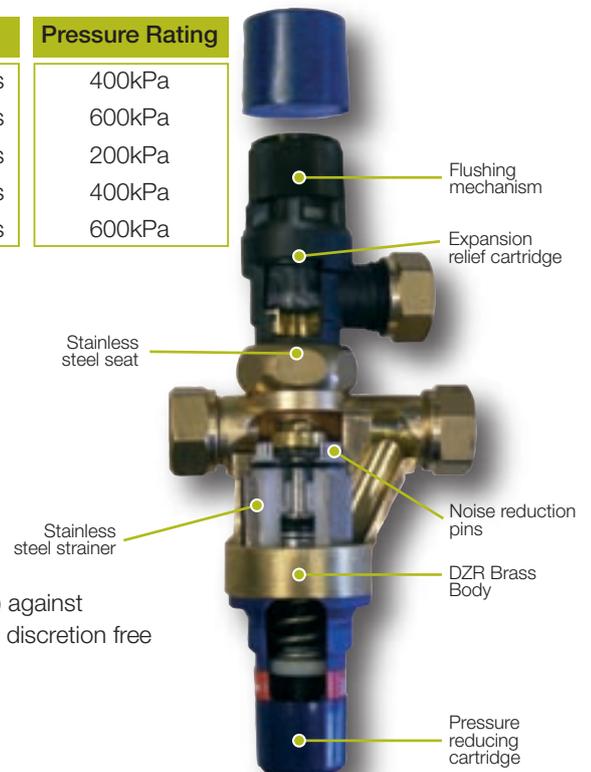

product installation data

The Kwikot Mono Valve should be installed on the outside of the dwelling on the incoming cold water supply from the water main.

The valve can be installed in a horizontal or vertical position. The forged arrow (▶) on the brass body indicates the direction of the water flow.

product warranty

Two years from date of purchase (proof of purchase invoice to be supplied) against manufacturing defects, such goods will be replaced or repaired at Kwikot's discretion free of charge.

Pressure Control Valve

product features

- The Kwikot Multi Valve body is manufactured from high grade forged DZR Brass with stainless steel relief seat.
- The fully serviceable cartridge with stainless steel strainer and spindle makes this valve suitable for domestic plumbing applications with a long service lifespan.
- The body incorporates an isolating valve with a non-corrosive Teflon ball, allowing the water supply to be shut off at the valve.
- The compact design with integral expansion relief valve lends itself to ease of installation, with 15mm and 22mm copper-to-copper connections and 20mm male iron connections.
- The expansion relief valve has a rotating flushing mechanism, which can be rotated through 360° and flushes dirt and sediment from the valve.

KHN3.224	20mm Male Iron Connections	400kPa
KHN3.226	20mm Male Iron Connections	600kPa

product specification data

Kwikot Multi Valves comply with SANS 1098 Specification (Control and Functional Valves) and carry the SABS mark of approval.

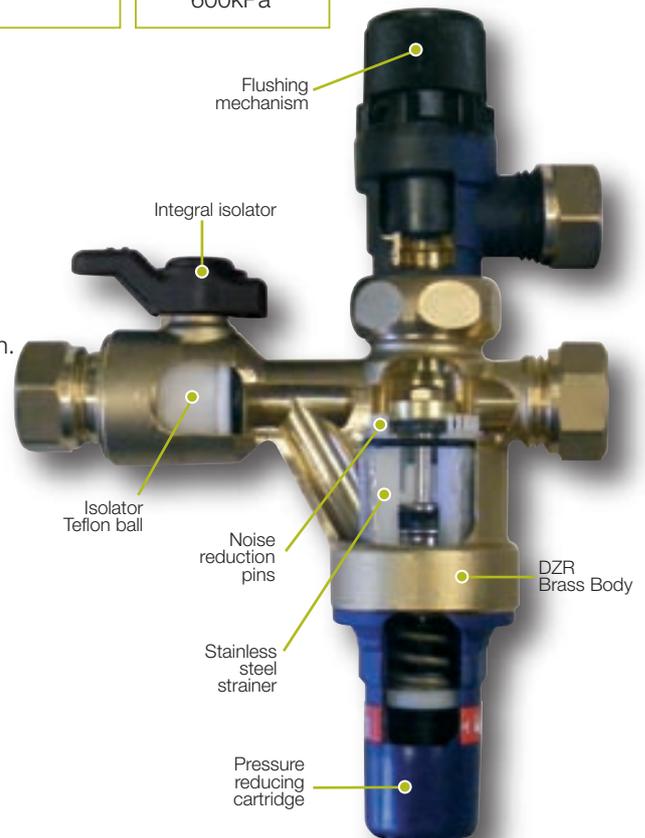

product installation data

The Kwikot Multi Valve should be installed on the outside of the dwelling on the incoming cold water supply from the water main.

The valve can be installed in a horizontal or vertical position. The forged arrow (▶) on the brass body indicates the direction of the water flow.

product warranty

Two years from date of purchase (proof of purchase invoice to be supplied) against manufacturing defects, such goods will be replaced or repaired at Kwikot's discretion free of charge.

Pressure Control Valve with Y-Strainer and Lever Ball Valve

product features

- A House Water Station (HWS) comprising of a Kwikot Mono Pressure Control Valve, Kwikot Y-Strainer and Kwikot Lever Ball Valve assembled in an aesthetically appealing polyethylene box.
- Mounted to the outside wall with 22mm Male Threaded Connections on the inlet and outlet, this HWS offers easy access when having to shut off the water flow into the house, by closing the Lever Ball Valve.
- Maintenance to any component in the HWS can easily be carried out.
- The Kwikot Mono Valve body is manufactured from high grade forged DZR Brass with stainless steel relief seat.
- The fully serviceable cartridge with stainless steel strainer and spindle makes this valve suitable for domestic plumbing applications with a long service lifespan.
- The compact design with integral expansion relief valve lends itself to ease of installation.
- The expansion relief valve has a rotating flushing mechanism, which can be rotated through 360° and flushes dirt and sediment from the valve.

House Water Station

product specification data

Kwikot Mono Valve complies with SANS 1098 Specification (Control and Functional Valves) and carries the SABS mark of approval.

Product Code	Connection Sizes and Type	Pressure Rating
KHN3.134	22mm Male Threaded Connections Inlet/Outlet	400kPa
KHN3.136	22mm Male Threaded Connections Inlet/Outlet	600kPa

product installation data

The Kwikot Mono Box must be mounted to the outside wall of the dwelling at the incoming water supply from the water main.

The box can be installed in a horizontal or vertical position. The forged arrow (▶) on the brass body of the Kwikot Mono Pressure Control Valve indicates the direction of the water flow.

product warranty

Two years from date of purchase on the Pressure Control Valve and one year on the Y-Strainer and Lever Ball Valve (proof of purchase invoice to be supplied) against manufacturing defects, such goods will be replaced or repaired at Kwikot's discretion free of charge.
