

## ROBEX SPARTA-GUARD

Robex Spartacote's solid-colour flooring system, Sparta-Guard, was developed to provide a beautiful solid-colour concrete flooring solution with minimal maintenance and rapid return to service. Incorporating Robex Spartacote's DCC technology makes Sparta-Guard one of the industry's most specified systems, providing twice the adhesion of epoxies or polyurethanes. Incredibly popular where cleanliness is a must, Sparta-Guard prevents common chemicals such as oils, grease, gasoline, detergents or salt from penetrating a concrete substrate.

### SPARTA-GUARD SYSTEMS ARE WIDELY USED IN THE FOLLOWING APPLICATIONS

- Airplane Hangars
- Hospitals
- Warehouses
- Distribution Centres
- Laboratories
- Showrooms
- Manufacturing Facilities
- Parking Decks
- Garages

### SPARTA-GUARD IS COMPLETELY UV STABLE AND IS IDEAL FOR A VARIETY OF INDOOR AND OUTDOOR SETTINGS

Available in Robex Spartacote's standard colours with both high-gloss and low-gloss sheens available, providing a solution where light sensitivity or reflection is an issue. Surface finish can be smooth or slip resistant. This system is perfect for situations demanding a highly durable and aesthetically appealing finish with minimal downtime. As is the case with all Robex Spartacote DCC coatings, the Sparta-Guard system can be installed in a matter of hours with next-day return to service.

- UV Stable
- All Climate Application
- 3x More Durable than Epoxy
- Excellent Colour/Gloss Retention
- Low-emitting Environmentally Friendly Coating
