

AFSAN PAN

AFSAN LOW LEVEL PAN PRODUCT CODE 750100

DESCRIPTION

Vaal Sanitaryware vitreous china "Afsan" low level 90° outlet washdown pan. Pan can be used with an Aquasave low level cistern (code 712034), a duct cistern (code 712035), a back inlet flush valve (FJ2.100 or equivalent), or a WISA concealed cistern.

SPECIFICATIONS

	Mass	Volume
Pan	13.00kg	0.070m ³

INSTALLATION

When installed with a low level cistern:

1. Assemble all cistern fittings with inlet valve on right hand side of cistern. Fix cistern to finished wall surface in line with pan position.
 2. (a) Fix pan onto floor using a 4:1 cement mortar mix. A richer mixture could result in pedestal failure.
OR
(b) Place pan into position and mark holepositions. Remove pan and drill holes. Place pan back into position, fix screw to the floor and secure.
 3. Flush the water line.
 4. Complete all plumbing connections to suite and test flush.
- Ensure that correct water level has been set and that operating overflow tube height conforms to and operates according to local by-laws and SABS specifications
